CALDECON, INC.—CRIME & TRAUMA SCENE CLEANING

What a Heading!! It's getting harder and harder to market these days! What used to be just an old fashioned "decontamination company" has now turned into a "crime & trauma scene cleaning" company! In today's society, the phrase "crime & trauma scene cleaning" pretty much gets the point across to the public as to the services we provide. To tell you the truth, less than 10% of our jobs have any type of "crime" associated with them, but that phrase has become the next generation, industry wide phrase for the old "decontamination company" description.

Caldecon, Inc. provides the collection and disposal of biohazardous waste, as well as the disinfection and sanitization of contaminated residential, commercial and industrial sites. Our usual response time is under 1 hour and we are open 24 hours a day, 365 days a year.

As second responders to accidents, incidents and traumatic events, Caldecon will provide an environmentally safe and effective way to restore your home or business to its original state.

We do the dirty work, complete disinfection & sanitization.

PROPERTY SERVICES

- **Homicide, Suicide & Accidental Death Disinfection and Decontamination.** This includes the complete removal of all blood, tissue and body fluid from furniture, mattresses, carpeting, padding, foundation structures, etc. We use only EPA approved, hospital grade, bio-degradable, commercial disinfectants and enzymes.
- **Unattended Death Cleanup / Odor Removal.** Using our State of the Art ozone generators, we can effectively remove decomposition smells from affected properties after full decontamination.
- **Gross Filth Property Clean Outs.** Animal habitations and infestations in homes can lead to a distressed property site very quickly.
- **Hoarding Clean Outs.** Hoarding is a disease in which a person accumulates so much material that it becomes unsafe for the owner to live in their own home. We are empathetic to all diseases and will help restore property to an environmentally safe condition.

Caldecon is Registered by the State of California.

Trauma Scene Management Practitioner Lic. #

- **Automobile Decontamination.** The complete removal and disinfection of biohazardous waste from all types of vehicles (limo's, SUV's, vans, etc., emergency vehicles)
- **Jail Cell & Cruiser Cleaning.** It is a pleasure to serve.
- **Blood Stain Removal.** Caldecon employs power washers and special enzymes that break up stained blood protein from materials such as concrete and linens.
- **Bird and Rodent Droppings.** Hantavirus Decontamination.
- **Tear Gas / Fingerprint Dust Cleaning.**
