

Industrial & Commercial Accidents

Caldecon, Inc. has served commercial and industrial customers when accidents have occurred on the job. It is our goal to sanitize these sites quickly and discreetly in order to restore your business back to it's pre-accident state. Industrial and Commercial accident cleanups are quickly becoming one of Caldecon's specialty services. We are proud to announce that we have recently worked extensively with General Mills, Inc ., a fortune 500 all American company at their Los Angeles, California plant, cleaning and disinfecting 6 floors of machinery, piping and equipment. (march 2008)

*According to the Bureau of Labor statistics, "Fisherman, Loggers, Pilots and Flight Engineers, Structural Iron and Metal Workers, Trash Collectors and Farm Workers have the most dangerous jobs. Not surprisingly, the deadliest jobs are those where men make up the majority of workers. Murder, falls, and other accidents account for most job-related deaths. "

We are on call 24 hours a day.
